

Dear Fridens

24/9/2019

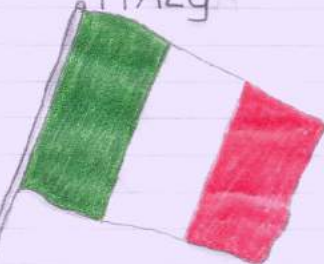

Hello! my name is Ecrin and I am 10 years old. My family is big. And I am a student. My favorite school subject is maths. I love my school. My school name is Necatibey primary school. We have two animals in our house, we have a fish and a bird. I love cycling and swimming. Sometimes on weekends we gather with friends and play games. Sometimes we travel with my family. Do you know that the hottest months are July and August? I love traveling and getting to know other countries and cultures. So can you please write to me about yourself and your life there? I wrote a letter because my English teacher gave a topic called writing a letter from an annual assignment. I have drawn flags so that my letter colors. We would like to go to Germany next year to visit my aunt. to go...
SEE YOU...

My Dear Imaginary Friend;

Hi. I'm Fatmanur. I'm nine years old. I'm from Turkey. I'm a student at Necati Bey School. I love my school, friends and my teacher. My sister always helps with my homework. I want to be a kindergarten teacher when I grow up. I don't like my mother sending me to buy bread. Anyway I don't want to bore you. It's your turn to write a letter. Nice to meet you. See you, bye.
